

There's a chair across the room
That I don't move

Not because I need it there
But I got used

To leavin' space for someone
Who ain't comin' back

It's just easier than shiftin'
All of that

[Pre-Chorus]

I don't call it hurt
I don't call it gone

[Chorus]

It's a quiet kind of lonely
Doesn't ask for much

Doesn't break the silence
Doesn't reach for touch

It just sits beside me
When the day gets slow

It's a quiet kind of lonely
Only I know

[Verse 2]

I still leave the light on late
Out in the hall

Like I'm waitin' for a sound
That won't come at all

And I catch myself still turnin'
Like you said my name

But it's just the house breathin'
All the same

[Pre-Chorus]

I don't chase it down
I don't let it show

[Chorus]

It's a quiet kind of lonely
Doesn't make a scene

Doesn't pull me under
Just stays in between

It's not loud or heavy
Like I thought it'd be

It's a quiet kind of lonely
Walkin' next to me

[Bridge]

People think it fades away
Or softens over time

But it just learns how to live
Between the lines

[Final Chorus]

It's a quiet kind of lonely
And I let it stay

Doesn't ask for nothin'
Just don't go away

It don't need an answer
It don't need to be

Anything but what it is
Inside of me

Sittin' in the room
Next to me

[Outro]

Yeah...
It just stays
